

# Empire installs Sound Masking System for Huntington Beach Company in just 2 days

## ADVANCED STORAGE PRODUCTS HIRES EMPIRE TO HELP PROVIDE QUIET TECHNOLOGY AT HEADQUARTERS

### CHALLENGE

Advanced Storage Products provides racking systems that are used in major installations for many Fortune 500 companies. They were in need of a more private, quiet call center for their employees.

### SOLUTION

Empire was able to help Advanced Storage Products out by installing a Sound Masking System.

Empire was able to complete this project during non-working hours to avoid disrupting the staff during working hours. Empire installed the Sound Making System throughout the building in just 2 days. A total of 84 speakers were installed at the Huntington Beach site.

Advanced Storage Products now has a Sound Masking System to enhance privacy and reduce distractions for their employees in the building. ASP can now maintain a complete functioning call center for their employees.

Empire Technologies provides a variety of cabling solutions for your business including Multi Mode and Single Mode Fiber installation, inter-building and intra-building backbone fiber, IDF Fiber, Fiber splicing and Certification testing. Please contact us for more information.
