

Large Structured  
Cabling Project  
done in just three  
days.

# HARLEY DAVIDSON HIRES EMPIRE TO EXPAND THEIR BUILDING SPACE.

## CHALLENGE

Harley Davidson located in Huntington Beach was in need of expanding their business telecommunication to the building next door that they had purchased. Telecom needs such as phone lines, computers, fax machines and internet needed to be expanded from their existing building across to the new building.

## SOLUTION

The technicians at Empire were able to run over 35 cables above the office space at Huntington Beach Harley Davidson in just three business days.

Empire was able to keep the customer up and running with out any down time for their business while completing the structured cabling throughout the building.

Harley Davidson now has the extra space needed for their business and complete functioning offices for their employees with phones, faxes and internet.

Empire Technologies provides a variety of cabling solutions for your business including Multi Mode and Single Mode Fiber installation, inter-building and intra-building backbone fiber, IDF Fiber, Fiber splicing and Certification testing. Please contact us for more information.
