

FULL SERVICE LOGISTICS COMPANY HIRES EMPIRE TO INSTALL SECURITY AND CAMERA SYSTEM TO THEIR MIRA LOMA WAREHOUSE.

CHALLENGE

A large logistics company in Mira Loma, California, that provides supply chain services across America with growing facilities and 5 in Southern California.

Empire Technologies was hired to install Burglar Alarms, Security Cameras, Access Control, an Intercom systems to their warehouse. One of the challenges our team came across was having to navigate the design process after the customer already had a security plan from a competitor.

SOLUTIONS

New Security, Burglar, Access Control, and intercom System- Starting out with a thorough Discovery process, Empire began clarifying all the objectives of the new security system and asked key questions with the client. Once all the questions were asked, Empire redesigned and Engineered a new security system. The solution was proposed to the client and upon approval the new security systems were scheduled for install. This project installation expanded over an eight day period.

RESULT

Empire Technologies installed a total of 40 security cameras in this large warehouse. As well as, a Burglar Alarm System consisting of 13 hardwired and 29 wireless zones within the location. ETG also provided Access Control Systems for 8 doors and provided an integrated audio and video intercom system. The security system and Burglar alarms is easy to use and most importantly is always reliable. This customer now has access to unlimited technical support via Empire's Helpdesk where they can call in and get help retrieving video footage of incidents. The Access Control systems will allow authorized personnel to enter control, restricted or secure spaces to the company. A total care package is also provided to our customer to ensure that if there are any issues they are addressed promptly and taken care of effectively.

Pedro Estrada Business Development Manager
